Certified Pool/Spa Operator (CPO)

Monday-Tuesday, March 30-31, 2009

Instructor: Jerel (Jerry) Ternes

The CPO course is designed to provide the skills and knowledge necessary to safely and efficiently manage and operate swimming pools and spas.

This two-day course will cover water chemistry, water testing, chemicals, safety, pool/spa management, regulations, pool/spa equipment, and other pool/spa related subjects. Each student will receive a "Pool/Spa Operator's Handbook" and upon successfully completing the open book examination (scoring 75% or greater) will receive a nationally recognized "Certified Pool Operator" Certificate from the National Swimming Pool Foundation.

The demand for Certified Pool/Spa Operators (CPO's) continues to grow. The CPO represents a profession that is important to the growth of swimming and the benefits gained from it. The CPO is responsible, not only for the function and operations of the facility, but also for its acceptance by the community in which it is located and by its patrons, present and potential.
